

CareBridge

AI-Powered Health Intelligence Ecosystem

Bridging Patients, Providers, and Insurers with AI

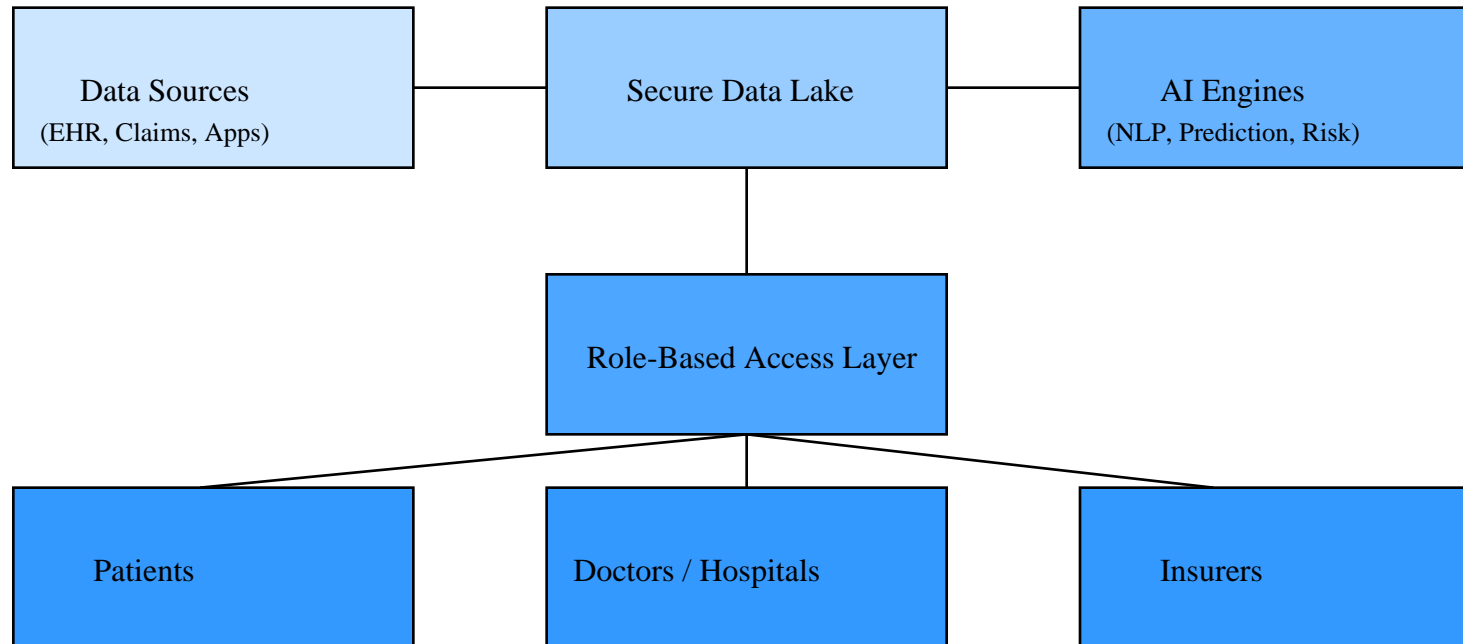

The Problem

- Fragmented patient data systems
- Delayed insurance approvals & claims
- Doctors lack comprehensive context
- Patients face delays & poor transparency

The Solution - CareBridge

- Unified AI-powered platform for patients, providers, and insurers
- Role-based dashboards for each stakeholder
- Predictive analytics & automated medical summaries
- Secure, HIPAA-compliant data handling

CareBridge Architecture

Market Opportunity & Business Model

- Global digital health market: \$550B+ by 2027
- Insurance tech growth: 12% CAGR
- CareBridge sits at the intersection of health + insurance

Business Model:

- SaaS subscriptions for hospitals & insurers
- Freemium for patients with premium upgrades
- Data-driven insights for insurers

Roadmap & Future Enhancements

- AI-powered prior authorization assistant
- Insurance claim fraud detection
- Regional compliance packs (HIPAA, GDPR, NDHM)
- Scalable partner integrations

The Ask

We are raising \$2M Seed Funding to:

- Expand engineering team
- Accelerate customer acquisition
- Strengthen compliance & security

Thank You!
